

## **Student Photography and Release Policy**

Photographs of the student may be taken during course activities (non-client contact) and utilized by the program for professional educational activities (i.e. bulletin boards, audiovisual presentations, pamphlets, catalogues, websites, etc...).

It is the responsibility of the student to notify the photographer at the time if they do not wish to have their photograph taken or utilized. Signing the Shasta College Publication Release Form signifies that the student has read and understood this policy, and gives the college permission to use the print or digital reproduction at its sole discretion.
